## Summary

---

Frontend engineer who enjoys building clean UIs and tinkering with side projects. Comfortable with Angular and React, can switch stacks when needed. I like solving problems end-to-end, from UI to backend, and experimenting with new tools (AI, hardware, Firebase).

## Skills

---

**Frontend:** Angular, React, PrimeNG, Tailwind

**Backend:** PHP(Laravel), Firebase, Spring Boot, Node.js

**Programming:** TypeScript, JavaScript, Python, Java, C#

**UI/UX & Design:** Figma, Canva, Adobe Illustrator

**DevOps & Tools:** Git (BitBucket, GitHub, Gitea), Docker, Jira, Huly,

**Mobile Development:** iOS (Xcode), Android (Java)

## Experience

---

**Software Engineer**, Square Health Ltd.

April 2024 – Present

- Developed and optimized Angular components with PrimeNG, ensuring fully responsive, high-performance SaaS interfaces.
- Integrated OTP authentication, ReCAPTCHA, and live map tracking, enhancing product security and usability.
- Delivered pixel-perfect UIs from Figma designs, ensuring design fidelity and seamless user experience.
- Mentored interns in Angular best practices, boosting team output and reducing QA cycles.

**Software Engineer Intern**, Square Health Ltd.

July 2023 – October 2023

- Developed Invoice Management System (Angular, Spring Boot, iOS)
- Strengthened Angular/TypeScript fundamentals

## Projects

---

**AgroVet (Angular, SpringBoot, PrimeNG, Figma)**

- Platform for managing farms and veterinary operations. Improved UI/UX, optimized performance, and implemented advanced Angular features to streamline workflows.

**Jotno (Angular, SpringBoot, PrimeNG, Figma)**

- A healthcare platform offering telemedicine with three integrated parts: Admin Panel, Doctor Web, and Patient Portal.

**Internal Ops Suite (Angular, Typescript, Tailwind, Spring Boot)**

- Includes EDCR, MRS, and Central Admin Panel for medical rep reporting, scheduling, and unified tool management.

**Mullar Tex Ltd. (Angular, PrimeNG, Firebase, Figma)**

- Corporate website for a textile manufacturing company showcasing products and company profile.

**Prompt-to-UI Suite (React, TypeScript, Tailwind, Vite, OpenAI API)**

- GPT-powered tools that convert natural language prompts into Tailwind/HTML previews and Figma-compatible code.

**CareInvoice (Angular, Typescript, Spring Boot)**

- Invoice system for hospitals and pharmacies, streamlining billing and financial record-keeping across web and iOS platforms.

## Education

---

Ahsanullah University of Science & Technology, B.Sc. in Computer Science & Engineering

2018 – 2023  
CGPA: 3.42/4.0

## Research Work

---

- **E-commerce Product Review Classification Based On Bengali Text Data(Machine Learning, Deep Learning):** This work uses accurate XAI-based deep learning and machine learning models for Bengali e-commerce product evaluation hand annotations.
- **Bengali Braille to Text(Computer Vision):** Object detection is used throughout converting Bengali Braille to Bengali Text.

## Awards

---

- Champion of Intra AUST Software Exhibition Spring 2019
